Junior Web Developer · Python · React · PHP · Full-Stack · 4 languages

PROFILE

DAW graduate (2025) with six months of hands-on web development — first in a production team, then on freelance projects — focused on APIs, modern front ends, and reliable day-to-day delivery.

- ▶ Day-to-day stack: Next.js, Python (FastAPI/Flask) and PHP/Laravel; authentication, validation, tests and GitHub CI.
- ▶ Comfortable working in four languages; experience coordinating international clients.

Public repos with READMEs and tests at github.com/mcherif004 — happy to share code before a call.
